## 30-DAY MONEY BACK GUARANTEE

"It's difficult to tell if you're going to love a pistol based only on the limited time you spend handling it at the counter of your local gun shop or looking at it online. To really figure out if it is the gun for you, you need to shoot it. We encourage you to shoot it as much as you want for 30-days then decide if it is right for you.

Whether you buy it from your local gun shop or your favorite online retailer you can do so with the confidence that you can return it within 30-days for a full refund + tax."

Exclusions: Does not include – Meister Manufaktur series, Law Enforcement IOP, CREED

The returns process is simple for the customer:

1. Visit [www.WaltherOwnersClub.com](http://www.WaltherOwnersClub.com)
2. Click "Return a Firearm"
3. Fill out the form with your contact information.
4. Upload a copy of your receipt or proof of purchase.
5. Submit the form.
6. Print the return label that will be emailed you.
7. Place the unloaded pistol back in the original case and into a cardboard box with the shipping label.
8. Drop off at approved FedEx location.
9. Receive your refund within 2 weeks.

## LEGENDARY LIFETIME LIMITED WARRANTY

The Walther Lifetime Warranty gives you the absolute confidence in your decision when you purchase a Walther. With Walther, you can rely on the precision of German engineering and the dependability of an American guarantee.

Our warranty provides unwavering support for your new firearms and continues for the life cycle of the product as long as the company manufactures and supports it.

If you purchase a Walther firearm, it carries its Legendary Warranty regardless of whether or not you are the original purchaser. This warranty covers Walther centerfire and rimfire firearms, purchased after 1993 only and does not apply to antique, limited edition, or custom firearms.

# IT'S YOUR DUTY TO BE READY

When we announced our newest campaign with a single sentence – “It’s your DUTY to be READY.” – it wasn’t just some bland corporate marketing line, it was a message of sincerity. A message to every single shooter who understands the importance of firearms, their safety and the inalienable right to bear arms. It was a message to clearly and concisely show that we are doing everything in our power to support shooters everywhere with not just the absolute best in firearm innovation and performance, but also access to the best training and informative firearms community as well.

At the heart of the “It’s your DUTY to be READY.” campaign is a willingness to do whatever is necessary to put the needs of every shooter first and foremost, regardless of their situation or circumstance. It’s a challenge that we are more than ready to meet.

Civilians who understand the weight of defending their loved ones, law enforcement striving to protect and serve, adventurers who demand reliability when it matters most and even competition shooters who simply won’t accept anything less than the best – all know what it takes to be ready. And we do too.

Being ready isn’t something that you can just purchase, it’s a lifestyle that requires constant attention and engagement in service of the duty we each take on in our personal lives, the duty to protect ourselves and our family, to serve our community or to excel amongst the elite. This includes training with the best, engaging with a larger supportive community and truly understanding the weight of responsibility that comes with the duty you have accepted.

To put it simply, it is a responsibility that we all accept.

## RED DOT ERGONOMICS

The RDS Ergonomics on the Walther PDP are designed around making the switch to the popular red-dot sight system easier for the new RDS shooter and faster for the RDS veterans. The RDS Ergonomics have been engineered to allow shooters to locate the red-dot instantly when presenting, achieved by engineered pinky pressure and offhand support. The PDP grip angle is designed for a natural aiming position which complimented and coupled with the innovative RDS Ergonomics, allow lightening fast acquisition of the red-dot. When you are READY to make the switch to using an RDS the PDP is engineered to get you there faster and easier.

## STEPPED CHAMBER

### READY TO ENGAGE

- A decrease in the diameter in the final section of the chamber.

### INCREASED RELIABILITY

- The beginning section of the chamber is a larger diameter. This allows for the cartridge to easily feed into the chamber, even in extreme circumstances.

### MATCH GRADE ACCURACY

- The tighter tolerance and consistent placement of the round leads to greater accuracy.

### INCREASED VELOCITY OF AMMUNITION

- Due to the tighter tolerance of the chamber, when combined with a well-supported chamber, the stepped chamber will push ammunition used at higher velocities.

### CLEANLINESS

- The stepped chamber drives any extra gases through the front of the muzzle, resulting in less blowback into the pistol.

# PERFORMANCE DUTY TRIGGER

The brand-new 'PDT' Performance Duty Trigger is Walther's new and improved trigger system which has been achieved through shortening the length of travel and increasing the tactile definition of the trigger break. The incredible result is a highly distinct, recognizable feel for repeatable accuracy that will maximize your confidence. When you are READY to take the shot, this is the trigger you want.

## QUICK DEFENSE TRIGGER

### FEATURED ON ALL PPQ, Q4 & Q5 MATCH SERIES PISTOLS.

With the creation of the PPQ came the Quick Defense Trigger from Walther. Providing the shooter an alternative to the heavy, spongy, striker-fired guns on the market.

The Quick Defense Trigger is a safe, two-stage trigger with a crisp-break, and short-reset. The first stage allows for consistent prep with a distinct wall that can easily be found under stressful situations. The second stage is the crisp break of the wall, resulting in accurate shots on target.

The reset of the Quick Defense Trigger measures only 1/10", allowing the shooter to skip the first stage of the trigger completely and fire the follow up shot by only moving their finger 1/10th of an inch. Resulting in faster, more accurate and consistent shots on target.

### TRIGGER SPECS

- 5.6 lb pull
- 0.4" trigger travel
- 0.1" trigger reset

### TRIGGER SHOE

- Wide, Flat with 4 molded grooves
- Allows for consistent pull and break
- Allows for greater accuracy from shooter

### BUILT IN SAFETY

## PERFORMANCE DUTY TEXTURE

Developed by Walther to provide a premium, yet functional grip. This Performance Duty Texture provides an aggressiveness to maintain proper grip performance. But, with its tetrahedron design, it is non-abrasive, providing no irritation to the skin or clothing of the user.

Walther has pushed the boundaries of testing in some of the harshest conditions, whether it's torrential rainfall, extreme heat, and humidity, icy cold temperatures, or thick mud, the Performance Duty Texture of the Q5 Match Steel Frame delivers peak performance.

# BRIEF HISTORY OF WALTHER

## WALTHER, 130 YEARS OF INNOVATION.

For centuries, areas with ore deposits have been centers of firearms manufacturing. An important example is the region around Suhl and Zella-Mehlis in Thuringia. Modest blacksmiths gave rise to special trades such as that of rifle maker, which was the trade of the forefathers of the Walther family. One of them was August Theodor Walther, who married the granddaughter of the respected rifle maker Gustav Wilhelm Pistor, from Asbach-Schmalkalden. Their son, Carl Wilhelm Freund Walther, laid the foundation for the Walther. Born in 1858, he started his own rifle making business after completing his education in 1886. With the assistance of his apprentice, Carl Walther began to manufacture hunting and target shooting rifles with Martini and Aydt breech block actions.

# BRIEF HISTORY OF WALTHER

- **1886** Foundation of Walther by Carl & Fritz Walther
- **1908** Release of the Walther Model 1, caliber 6.35 the first self-loading pistol.
- **1929** Fritz Walther goes into production with the "Police-Pistol" or "PP"
  - First pistol with a single/double action trigger
  - First pistol with rotating safety/decocking lever located on the left rear portion of the slide
  - Calibers: 7.65mm, 6.35mm, .22 l.r., and 9mm short (.380 ACP)
- **1993** Hornst Wesp, technical leader of firearms for Walther, along with Peter Dallhammer, the designer, began development of the P99.
  - First pistol with interchangeable back straps
  - Double Action/Single Action, Striker-Fired trigger.
  - Calibers: 9x19mm Parabellum and .40 S&W
- **2001** P22 First of its kind, polymer framed tactical .22 lr designed for sport and leisure shooting.
- **2007** PPS - Revolutionized concealed carry with one of the first single stack 9mm, polymer frame pistols with capacity changing magazine sizes.
- **2008** PK380 - First centerfire pistol designed for light recoil and easy to rack slide.
- **2011** Walther PPQ
- **2021** Walther PDP

PDP

# OVERVIEW OF SERIES

DEFINED BY OVER A CENTURY OF ENGINEERING PASSION,  
PRECISION WORKMANSHIP AND INNOVATION,

Walther's timeless innovation has once more achieved a breakthrough never seen before in firearms with the PDP elite handgun. Whether you are on the job or with the family, it is your duty to stay ready for any situation that may come. Now, you can do so confidently with the groundbreaking advancements afforded by the Walther PDP. With revolutionary ergonomics, SuperTerrain Slide Serrations and a brandnew Performance Duty Trigger, this is the next evolution in worldclass ingenuity for pistols. No other handgun can put all the tools you need at your disposal like the Walther PDP. It's a handgun specifically designed to maximize readiness no matter the circumstance, and with the support of Walther's historic ingenuity, its guaranteed to surpass all expectations time and time again. The unique design offers versatile advantages when you need them most, providing supreme performance in any condition, making this the go-to choice for shooters who demand excellence every single day. As the ideal firearm for those seeking unmatched versatility, dependability and effectiveness in both concealed carry and conventional service situations, the Walther PDP is how you stay ready.

PPQ

# OVERVIEW OF SERIES

The PPQ is the handgun that has the entire industry talking. The quick-defense trigger is known as the best striker-fired trigger by nearly every critic. The ergonomically designed grips fit the hand like a familiar pair of gloves, providing a uniquely accurate natural point of aim.

Out of the box, the PPQ is one of the most versatile pistols on the market! The size and capacity make it an excellent option for concealed carry, home defense, duty use, recreational, or competition shooting. Feel the excellence of Walther suited to your needs with the PPQ, a handgun that defines both efficiency and performance.

Q4 & Q5 SF

# OVERVIEW OF SERIES

## Q4 SF - PEAK PERFORMANCE. IN ANY SITUATION.

Outmatched by no one. Walther continues their tradition of superiority with a handgun designed specifically for those who only buy the best and nothing less. This is the ultimate representation of high-class performance in a conceal carry package that just can't be found anywhere else. A feat in firearm engineering that simply must be felt to be believed, the Q4 Steel Frame will surpass all expectations with its unrivaled accuracy and performance. Its steel frame – precision machined from solid steel billet – improves ergonomics with a wrap-around grip panel, extended beavertail, full length picatinny rail and recessed slide release. The weight distribution of the steel frame drastically reduces recoil to improve shooter performance, ultimately contributing to overall efficiency.

A testament to Walther's enduring legacy of excellence, the Q4 Steel Frame delivers peak performance when you need it most. Featuring Walther's legendary barrel, phosphoric sights as well as front and rear serrations, the advantages this handgun delivers are undeniable. The Q4 Steel Frame from Walther is an accomplishment that encompasses everything shooters desire in a premier concealed carry firearm capable of outlasting even the toughest conditions. Get yours today and shoot with the best.

Q4 SF OR

## Q5 MATCH SF - POWER. FORGED IN STEEL.

Breaking boundaries and shattering expectations. The Q5 Match Steel Frame is superior performance taken to the next level through heightened functionality and a relentless determination to deliver precisely what the experienced shooter demands. The real competitive edge begins here.

The Q5 Match Steel Frame is a testament to the level of excellence found solely at Walther. Its steel frame – precision machined from solid steel billet – improves ergonomics with a wrap-around grip panel, extended beavertail, full-length picatinny rail, and recessed slide release. The weight distribution of the steel frame drastically reduces recoil to improve shooter performance, ultimately contributing to overall efficiency.

A modern work of art in its own right, the slide is outfitted with features previously found only on custom handguns. It is ported and optic ready, with LPA sights as well as front and rear serrations. Walther's superior accuracy is quickly realized when shooting thanks to the 5 barrel with polygonal rifling and stepped chamber.

The Q5 Match Steel Frame is a remarkable triumph made possible only by Walther's superior standards. Despite common misconceptions, you can buy performance.

BLACK DIAMOND

# PATRIOT

The "Patriot" limited edition elegantly fuses the rich patriotic history of the United States with the unyielding performance of the Q5 Steel Frame. The distinctive engraving on this iconic pistol is immediately recognizable as an uncompromising embodiment of accomplishment and a passion for quality.

- Patriot engraving applied by the world-famous Bottega Giovanelli in Italy
- 20 lines per inch checkering, satin anodized grip
- Tenifer® nitride treated barrel, slide, steel-frame, magazine base plate for superior hardness and phenomenal protection against corrosion
- Dynamik Performance Trigger, reduced take-up, trigger stop and trigger reset breaking at 5.5lb
- One piece wrap-around aluminum grip machined from solid block of aerospace grade aluminum alloy magazine base plate machined from solid block of pure steel
- Engraved black serrated target front sight and adjustable match rear sight integrated into slide

# VINTAGE

Emphasizing the sleek appearance of your firearm doesn't have to come at the cost of effectiveness!

WALTHER's case color hardening combines both proven functionality and distinctive aesthetics to a degree that simply cannot be achieved by using any other heat treatment available today. Due to the unique process, the special earth-colored effects that result from treated metal parts are highly individual, allowing for each WALTHER Vintage pistol to truly stand out as an exclusive firearm.

Case hardening is a historically traditional process of utilizing technology in gunsmithing mainly to achieve both a higher hardness on the surface, as well as increasing wear resistance. For this purpose, the treated material is deeply enriched with carbon in a granulate of wood, leather and bone charcoal which is then hardened in water through a quenching process. The more complex a component is, the more experience and skill is required to perform this process successfully. During quenching, the steel oxidizes, which helps to form different oxide layers of varying thickness in dynamic colors such as brown, green, yellow, blue, and even magenta. The surface hardness this process establishes in our color-hardened components reaches generally 45-55 HRC. The colorful surface also features a remarkably effective corrosion protection, which is additionally increased by an approx. 1/1000" thin layer of special protection paint.  
Walther Meister Manufaktur Vintage

The beautifully marbled and cloud-like shimmering color effects that result from the cooling process of the treated metal parts are incredibly exceptional on every single WALTHER Vintage handgun. With a case-color-hardened pistol, you can hold a truly unique representation of WALTHER's ingenuity and proficiency in your hands.

# BLACK TIE

The “Black Tie” special edition is deliberately understated, yet its refined looks and added performance, make this unassailable Q5 Steel Frame a modern classic.

- Tenifer® nitride treated barrel, slide, steel-frame, magazine base plate for superior hardness and phenomenal protection against corrosion
- Stinox® coating applied giving satin finish and outstanding protection against corrosion and wear
- Dynamik Performance Trigger, reduced take-up, trigger stop and trigger reset breaking at 5.5lb
- One piece wrap-around aluminum grip machined from solid block of aerospace grade aluminum alloy and the magazine base plate machined from solid block of pure steel
- 20 lines per inch checkering, satin anodized grip
- Black serrated target front sight and adjustable match rear sight integrated into slide

# BLACK DIAMOND

The “Black Diamond” special edition takes the look and performance of the indomitable Q5 Steel Frame to a purposeful new dimension. With a futuristic lustrous finish, this distinctive pistol imbues a pride of ownership and is a statement of class.

- Tenifer® nitride treated barrel, slide, steel-frame, magazine base plate for superior hardness and phenomenal protection against corrosion
- Diamond Like Carbon (DLC) coated giving a unique high-polish finish
- Dynamik Performance Trigger, reduced take-up, trigger stop and trigger reset breaking at 5.5lb
- One piece wrap-around aluminum grip machined from solid block of aerospace grade aluminum alloy and the magazine base plate machined from solid block of pure steel

PPS

# OVERVIEW OF SERIES

## THE SINGLE-STACK THAT STARTED IT ALL

A revolutionary yet practical concept. Delivering the premier concealed carry option with unprecedented accuracy and comfortability, capable of withstanding anything thrown in its way.

Upon its release, the PPS series transformed the industry by introducing a polymer single-stack concealed carry pistol, effectively establishing a trend that remains popular still today. The PPS M2 is a more refined version of that original design, now measuring only 1" thick! It is the ultimate representation of Walther's world-renowned performance catered to the expectations of the modern shooter.

The thin, yet comfortably full frame provides the most grip surface in its class, allowing ample room for off-hand support. More grip surface provides significantly improved recoil management when combined with the higher grip supplied by the undercut trigger guard.

The secret to the accuracy of the PPS M2 results from the legendary Walther barrel and an internal steel chassis that provides superior slide-to-frame fit. These features make the PPS M2 the most accurate, controllable, and concealable handgun available on the market. Often imitated, but never duplicated, the PPS series is designed to exceed every expectation and deliver the absolute best shooting experience possible.

# OVERVIEW OF SERIES

## EASY TO RACK. TOOL-LESS TAKEDOWN. REDUCED RECOIL

The CCP – or Concealed Carry Pistol – is the first polymer pistol with Softcoil™ gas technology. This technology improves the user's experience by reducing overall felt recoil and allowing the slide to be easily manipulated regardless of hand strength. The CCP is also the most ergonomic and comfortable handgun in Walther's dynamic concealed carry lineup. Tool-less takedown and a fixed barrel allow for easy cleaning and maintenance, making this one of the most accessible pistols available today.

With additional popular features such as an external safety, front, and rear slide serrations and a reversible magazine release, the CCP M2 handgun is sure to become a valuable addition to your everyday carry.

CCP M2+ ANGEL BLUE

CCP M2+ TWO-TONE

CCP .380 BLACK

.380 TWO TONE

CCP .380 ANGEL BLUE

## SOFTCOIL™ GAS TECHNOLOGY

### GAS-DELAYED BLOWBACK

- A system that uses gas pressures from the ignited cartridge, directs it through a small port in the barrel, located directly in front of the cartridge chamber.
- The gasses then fill the piston chamber.
- As the slide moves rearward, the piston (attached to the slide, located under the barrel) moves through the gasses in the piston chamber.
- This process results in slowing down and delaying the rearward motion of the slide.

### THE PISTON

- Attached to the slide and travels underneath the barrel.

### ADVANTAGES

- Reduced felt recoil
- Less force required to operate slide

# PPK

# OVERVIEW OF SERIES

Walther's industry-leading innovation takes the spotlight with their PPK model handguns. At the time of its invention over 80 years ago, the PPK inspired an entirely new category in the firearm industry, now widely known as the concealed carry pistol. To fill the need for performance in a concealable package, Walther broke the mold of pocket pistols and full-size military pistols to bring undercover officers a more-practical and reliable option, the PPK.

To execute this revolutionary concept, the Police Pistol Kriminal took all the modern advancements available at the time and combined them into one performance leading pistol. It features a double-action/single-action trigger that decocks when rotating the safety down into the safe position, first introduced by Walther.

Few guns have withstood the test of time like the brilliantly designed PPK. To this day, the PPK is

still one of the most sought after concealed carry pistols on the market. This demand serves as a testament to Walther's long-enduring legacy of excellence and unparalleled performance. The timeless design and superior engineering make the PPK a true legend amongst firearms.

After the Gun Control Act of 1968, Walther created the PPK/S by combining the Walther PP frame and the Walther PPK barrel. Resulting in a frame that adds one additional round of capacity when compared to the PPK. Today, both variants are available to purchase, due to new manufacturing by Walther's USA based facility in Fort Smith, Arkansas.

# OVERVIEW OF SERIES

## THE ORIGINAL TACTICAL RIMFIRE

Originality at its finest. This firearm is a testament to a history of unprecedented achievement in both ingenuity and effectiveness. Able to surpass the expectations of modern shooters and define the competitive advantage only Walther can provide.

Walther once again took the industry by storm with the introduction of the first polymer frame semi-auto rimfire pistol, the P22. The consistent reliability, timeless style, features, and outright affordability pushed this series to become the absolute standard. Best-in-class ergonomics, supported by interchangeable backstraps, establishes the P22 as one of the most comfortable

handguns available today. Plus, an ambidextrous magazine release and slide safety make this pistol perfect for both right and left-handed shooters.

Premium features such as windage adjustable rear sight, captured recoil spring, double-action/single-action trigger, and threaded barrel help to solidify this pistol as a leader in its class. The extremely reliable P22 is ready for anything from varmint control to recreational shooting. A rare feature for a rimfire, the P22 is covered by the Walther Legendary Lifetime Limited Warranty. This pistol is the premiere handgun for those seeking superior quality and performance from a tactical rimfire.

# WALTHER DIVISIONS

The Defense, Performance, and Adventure Divisions are an extension of Walther's own mission to provide the customer with everything necessary to be READY in any situation. Authentically developing and creating products this way allows Walther owners to concentrate on being READY for whatever they may encounter.

Walther has the product covered, focus on being READY.

## DEFENSE DIVISION

The Walther Defense Division is a team of professionals with passion and skill to help advise Walther ensuring the brand and its products lead the industry in concealed carry, duty, and home defense markets.

To ensure real-world experience is incorporated into every Walther product from the ground up, the Walther Defense Division consists of leading trainers and industry professionals. Each member of this unique team is a specialist in a particular area of handgun self-defense. Combining these different skill sets and experience assists Walther in creating performance leading products, bringing all this incomparable knowledge into the DNA of every product.

DEFENSE DIVISION

## PERFORMANCE DIVISION

The Walther Performance Division redefines what is possible on the range. This group of professional competitive shooters advises Walther with performance upgrades that can help every shooter ensure they can perform to the best of their abilities.

Hundreds of thousands of rounds shot on range by some of the world's leading competitors infuse every Walther product. Each member worked for years tirelessly investing time and money to reach their skill level. Now, teamed up with Walther, collectively we can provide training insights and product advantages that countless shooters have spent many years figuring out. Now, you can be READY to win, faster and more accurate than ever.

PERFORMANCE DIVISION

## ADVENTURE DIVISION

The Walther Adventure Division is a team of outdoorsmen and women who are modern day nomads who's knowledge and experience will ensure you are READY wherever you are at, however remote, whatever the situation.

Carrying a defensive firearm on your adventure can be a challenging task and the Adventure Division team will provide tips and strategies you never knew you needed when hiking, fishing, hunting, or traveling to a new place for vacation. With many years experience on the road, in the air, deep in the backcountry, the Adventure Division know the best ways to be READY and stay safe on any adventure.

Each member of this unique team is a specialist in a particular area of travel and outdoor adventure, influencing Walther's products and giving a new perspective on being READY.
