YOU CAN ALWAYS
COUNT ON A BERETTA.
WE PUT ALL OF OUR HEART,
OUR MIND, THE EXPERIENCE,
AND THE WILL TO GIVE YOU
ALWAYS SOMETHING NEW,
SURPRISINGLY NICE,
SUPER RELIABLE,
THAT WILL GIVE YOU JOY
EVERY TIME YOU USE IT.

WELCOME TO BERETTA,
WHERE 500 YEARS OF TRADITION
GO HAND IN HAND WITH THE MOST ADVANCED
TECHNOLOGIES TO CREATE UNIQUE PRODUCTS.

FOR SOME IT'S A GENTLEMEN'S HUNT,
FOR SOME IT'S HANGING OUT WITH BUDDIES.
FOR SOME IT'S A BIG FAMILY,
FOR SOME IT'S A JUST A CREW.
FOR SOME IT'S AN AFTER-WORK GROUP,
FOR SOME IT'S LIKE AN ALUMNI NETWORK.
FOR SOME IT'S BEING IMMERSED IN NATURE,
FOR SOME IT'S SAVORING ITS MOST AUTHENTIC TASTE.
FOR SOME IT'S A CLIQUE OF CONNOISSEURS,
FOR SOME IT'S A 1 MILLION CLICK COMMUNITY ON FACEBOOK.
FOR SOME IT'S A WOMAN THING,
FOR SOME IT'S A FATHER AND SON THING.

BUT ALL TOGETHER, THESE PEOPLE MAKE UP
THE LARGEST FAMILY OF HUNTERS THAT EVER EXISTED.
BECAUSE IT STRETCHES BACK 500 YEARS,
RIGHT TO THE START OF THE BERETTA DYNASTY.
...IT IS THE BERETTA TRIBE.

686 SILVER PIGEON I

686 Silver Pigeon I

The 686 Silver Pigeon I is Beretta's most popular over and under shotgun of all time. Based on the superb 680 platform, with its unmistakable low, slim action and legendary, ultra reliable mechanism; it won the hearts of shooting enthusiasts the world over.

The new version incorporates the perfect ballistics of Beretta's highly reputed Steelium Optima-Bore HP barrels. It also features a more defined and lustrous floral engraving, which is further enhanced with images of grapes on the vine and the iconic Beretta Three Arrows logo on both side of the action.

All of which combines to make the 686 Silver Pigeon I the most elegant, well-balanced and quick-to-shoulder, factory-made shotgun in the world.

687 SILVER PIGEON III

687 Silver Pigeon III

THE BEAUTY OF A PERFECT SHOT

The 687 Silver Pigeon III shotgun represents an elegant evolution of the Silver Pigeon I, designed for shooters looking for the reliability and minimal maintenance requirements of the 680 platform, presented with attractive aesthetics and a superior wood finish.

The fine game scene engraving is embellished by a special sparkle in the bas-relief areas for a pleasant contrast effect, while exquisite gloss finish enhances the grain of the stunning class 2.5 wood, protects it from rain and improves longevity. All these features are combined with the excellent ballistics guaranteed by the Steelium Optima-Bore HP tri-alloy steel barrels.

WEIGHT
2,8 KG
(with 61 cm
barrel)

The Ultraleggero begins a whole new chapter in the history of lightweight over and under shotguns, pushing the boundaries of design beyond all previous imagination; delivering the strength and reliability of a steel receiver but with an exceptionally low weight, something that had only previously been achieved with aluminium receivers. Thanks to the use of state-of-the-art engineering techniques,

Beretta “skeletonised” the receiver and reduced weight in several components of the shotgun, including only the structural elements that are essential for the rigidity, the performance and the balance of this shotgun. The result is a lightweight yet sturdy shotgun, ideal for hunters looking for a fast-handling gun that swiftly gets onto the game.

Enjoy your hunt, gun weight will no longer be a burden.

STRENGTH MADE LIGHT

687 EELL Diamond Pigeon

687 EELL Diamond Pigeon Game scene

687 EELL Diamond Pigeon Scroll

The exceptionally strong, low-profile receiver is elegantly adorned with exquisite game scene or intricate scroll engravings, made with the best in class premium laser engraving technology. The stock and forend are superior quality walnut embellished with hand cut chequering and lustrous gloss finish, demonstrating how improved performance and refined beauty can be perfectly matched.

486 *Parallelo*

Built with a beautifully proportioned, scroll engraved, round body receiver, the 486 is a modern classic in the making. Using a modified demi-block design, Beretta's 'Triblock' system allows for a seamless barrel profile in the best English tradition whilst the V spring mechanism ensures fast, crisp trigger pulls.

Ultraleggero Vittoria

The Vittoria series is the first Beretta's shotgun range specifically designed for women. Vittoria shotguns feature a dedicated ergonomics, suited to those with a shorter stature, to ensure a smooth, comfortable and precise handling. These guns are fitted with a shortened, semi-Montecarlo style stock, have a reduced pistol grip and additionally are completed by a 1 mm checkering, derived from the premium guns, beneficial for smaller hands.

THE 9 REASONS TO CHOOSE THE BERETTA SEMI-AUTO TECHNOLOGY

1 PERFECT PATTERNS ON EVERY SHOT.
The ingredients of the great accuracy of the Beretta Steelium barrels are: the exclusive tri-alloy Beretta Steel (Ni, Cr, Mo), the deep drilling, the cold hammer forging process and the vacuum distension. Every Optima-Bore HP barrel profile has been specifically designed and tested to provide perfect accuracy with every type of shells: lead, steel and steel High Performance.

4 ALL-LOAD PROVEN RELIABILITY, FROM 24 G. TO 64 G.
Beretta gas-operating system B-Link is world's most reliable system. The closing force is stronger because, when the reloading cycle begins, the energy available to unlock the bolt is significantly higher. Higher energy when opening allows higher closing force, preventing the bolt to unlock when it is not supposed to do it.

7 LOWEST MUZZLE JUMP.
Beretta semi-auto shotguns give you the lowest muzzle jump ever combining the stunning recoil reduction of the Kick-Off devices with the unique ballistic features of the Steelium Optima-Bore HP barrels. More control after each shot, better performance for each next one.

2 THE BEST RECOIL REDUCTION.
Kick-Off, Kick-Off Plus and Kick-Off Mega ensure you up to 70% recoil reduction giving you more stability, comfort and control for faster target acquisition. More comfort for you, especially when you enjoy shooting hundreds of shots in a single day, and enhanced durability.

5 COMFORT AND EASY TO ASSEMBLE.
The Extralight® recoil pad is 30% lighter than a standard recoil pad and much more resistant to abrasion, aging and the elements. Its closed cell structure avoids liquid absorption and its structure delivers comfort, stability and excellent recoil absorption. The B-Lok cap, the magazine cap exclusive to Beretta, ensures a perfect and secure closing with just 60 degrees of rotation instead of multiple turns.

8 ERGONOMIC AND EASY TO OPERATE.
The extended bolt handle and bolt release low profile lever allow for easier manipulation during the coldest and rainiest days. An enlarged loading port facilitates an easier and quicker reloading. The new extended lifter avoids thumb bite or glove catch while loading the gun.

3 UNBELIEVABLE RELOADING SPEED (+36%).
The Beretta gas-operated system is fast like an eye's blink. That's why it's called B-Link. The power of the gas-system, combined with the precision of the rotating bolt, ensure you a fast, reliable and smart cycling. You can spend all your magazine's cartridges before the 1st round touches the ground.

6 CLEANER THAN EVER AND EASIER TO CLEAN.
With B-Link, the only weak point of the gas-operating system has been practically reduced to zero. The re-engineering of gas ports and the systematic reduction of all the mechanical frictions reduce dirt to the minimum terms. You will experience the lowest maintenance need ever, and a smart, easy, fast and secure cleaning.

9 DESIGNED FOR THE FUTURE, NEVER FORGETTING TRADITION.
The Beretta in-house design team works every day to match design with functionality, giving you original and aesthetically beautiful, simple solutions that optimize the shape, weight and ease of use.

A300 Outlander

A300 Outlander Silver

A300 Outlander

The A300 Outlander is the latest evolution of Beretta's A300-series gas-operated semi-auto shotguns, which have been sold to millions of hunters and sportsmen around the world. And there's a reason for their popularity: unbeatable performance as well as great value out of the box.

Xtreme preparations, Xtreme conditions, Xtreme expectations.
The new A400 Xtreme Plus is built to go wherever your hunt takes you. Engineered to be the softest-shooting, most reliable 3.5" waterfowl shotgun out there, and to withstand the toughest waterfowl environments.

It has the best recoil and muzzle rise reduction system in the world: the Kick-Off Mega, combining 3 hydraulic shock-absorbers and return springs to reduce recoil up to 70% and the B-Steady system, avoiding the annoying sliding of the nose piece on the cheek, to let your face perfectly firm on the stock and never lose the line of sight.

It features Beretta's exclusive Steelium Plus barrels, providing the best possible patterning from all hunting loads. An extended charging handle and bolt release from the factory allow for easier manipulation during the coldest and rainiest days. An enlarged loading port allows for ease of loading.

The new A400 Xtreme Plus shoots always, shoots everything and shoots even better!

LOAD YOUR INSTINCT

Beretta is stepping into the world of hunting rifles, offering a revolutionary firearm with a linear reloading system. This new rifle encapsulates all of Beretta's experience, acquired over years of working in both the military and commercial market. The BRX1 guarantees the utmost speed, accuracy, precision, safety and ease of use, from the first pull of the trigger to the reload. The smoothness of reloading, the interchangeable barrels of varying calibers, three trigger weight options, fully ambidextrous bolt and extraction side with the possibility to change from right hand to left without any tools make the BRX1 a versatile, modern, modular firearm suitable for every kind of hunter and shooting environment.

686 SILVER PIGEON I Sporting

686 Silver Pigeon I Sporting (B-Fast)

The Beretta's most popular over and under shotgun of all time. Based on the superb 680 platform, with its unmistakable low, slim action and legendary, ultra reliable mechanism; it won the hearts of shooting enthusiasts the world over. The new version incorporates the perfect ballistics of Beretta's highly reputed Steelium Optima-Bore HP barrels. It also features a more defined and lustrous floral engraving, which is further enhanced with images of grapes on the vine and the iconic Beretta Trident logo on both side of the action. All of which combines to make the 686 Silver Pigeon I the most elegant, well-balanced and quick-to-shoulder, factory-made shotgun in the world.

687 SILVER PIGEON III Sporting

687 Silver Pigeon III Sporting

THE BEAUTY OF A PERFECT SHOT

The 687 Silver Pigeon III shotgun represents an elegant evolution of the Silver Pigeon I, designed for shooters looking for the reliability and minimal maintenance requirements of the 680 platform, presented with attractive aesthetics and a superior wood finish.

The fine game scene engraving is embellished by a special sparkle in the bas-relief areas for a pleasant contrast effect, while exquisite gloss finish enhances the grain of the stunning class 2.5 wood, protects it from rain and improves longevity. All these features are combined with the excellent ballistics guaranteed by the Steelium Optima-Bore HP tri-alloy steel barrels.

694

694 Sporting

694 Trap

694 DTL Step Rib

694 is the over and under platform designed specifically for clay shooting, and with a precise objective in mind: to help shooters increase their success rate. Thanks to a meticulous mechanical and ergonomic design process, the 694 is perfectly balanced, natural and immediate when shouldering. The shape of the action and the stock provide increased field of vision, while the new forend iron system allows to maintain the opening load constant over time, and the Steelium Plus barrels guarantee a dense, uniform pattern every time. In addition to the Sporting and Trap version, the 694 is available also in Skeet, Down-The-Line, ACS (with adjustable top rib), Vittoria and Pro version (with adjustable TSK stock).

DT11 Black Edition EELL Sporting

The EELL version of the DT11 Black Edition brings the use of carbon fiber to levels never reached before in the firearms world.

In addition to the top rib, the trigger plate, and the trigger group, the Beretta DT11 Black Edition EELL over and under shotgun also features carbon fiber trigger guard and two innovative long side plates, where the engraving reflects the characteristic carbon fiber twill texture.

The stock, made of selected grade 4 walnut wood, is available in an adjustable, fixed or headed version.

The oil finishing provides the wood with higher water resistance. The hand made 1 mm checkering gives the stock a more refined look and a firm and comfortable grip.

694 Sporting Vittoria (B-Fast)

The Vittoria series is the first Beretta's shotgun range specifically designed for women. Vittoria shotguns feature a dedicated ergonomics, suited to those with a shorter stature, to ensure a smooth, comfortable and precise handling. These guns are fitted with a shortened, semi-Montecarlo style stock, have a reduced pistol grip and additionally are completed by a 1 mm checkering, derived from the premium guns, beneficial for smaller hands.

1301 Comp

1301 Comp

The Beretta 1301 Comp semiauto shotgun is designed to win tactical competitions right out of the box. Combining the technology of Beretta's best sporting shotguns with the requirements of the most demanding tactical shooters, it cycles faster than the other competition shotguns, handles like a dream and has oversized controls for super-easy operation.

It is available in two barrel lengths (53,5 and 61 cm) and its receiver is drilled and tapered for rail mounts, so that it can be equipped with optics or tactical aiming devices without any gunsmithing. And thanks to its Optima-Choke HP interchangeable choke system, it can also be adapted for other uses and will always perform like a Beretta.

| Model | Gauge | Chamber (mm) | Barrel (cm) | Rib (type) | Chokes (type) | Accessories | Pad |
|-----------|-------|--------------|-------------|----------------|---------------|-------------------------------|--------|
| 1301 Comp | 12 | 76 | 53,5 - 61 | 10x8 with step | OCHP | 1 Choke (****/IC) - Extension | Rubber |

1301 Comp PRO

1301 Comp Pro

After gaining the podiums of the Shotgun World Championships with its incomparable cycling speed, the 1301 Comp evolves in the Pro version, incorporating the improvements suggested by the multi-rated Beretta shooters. With the comfort, stability and ease of shouldering of its stock, its super-fast, safe and easy loading system, the enlarged bolt release button and bolt handle and the Beretta by Tony System extended magazine for 10 + 1 cartridges, the 1301 Comp Pro is today the most competitive platform for practical shooting, already in its out-of-the-box configuration, yet allowing further personalization, so sought after by the most demanding shooters.

92X PERFORMANCE

The 92X Performance: accuracy, power and speed the #1 choice of champions way. The new Beretta handgun specifically designed for competition does not accept compromises and aims to top performances, by bringing on the shooting ranges one of the most reliable locking systems ever, along with a full steel vertec frame, a heavier Brigadier slide and the new surprisingly fast and crisp Extreme-S trigger mechanism. The 92X Performance is now available in the Defensive version, lightened, modified and now approved for IDPA and USPSA competitions and in the Optic version, red dot ready.

90 Series

92 FS Grey

92 FS Bronze

The Beretta 92 has been setting the standards for best military, police and tactical pistol for over a quarter century.

The reason is that it was designed, and has kept evolving to be and remain the most accurate, durable and reliable semi-auto handgun on the market. Easy to use, absolutely safe and delivering impressive firepower, it remains the sidearm of allied forces the world over, as well as of countless police and law-enforcement agencies.

Px4 Storm

Absolute durability, reliability, and ergonomics have made it the go-to choice for shooters around the world. Designed to meet the most stringent military standards of durability, the PX4 has been reported to fire well over 150,000 rounds with zero part breakage. The lines of the pistol are snag-free and make unholstering and reholstering easy and fluid. The pistol may be adapted to different hand sizes and shooting styles thanks to a modular design with interchangeable backstraps. The ambidextrous and reversible controls offer the possibility to easily train or shoot with either hand. Besides being one of the strongest actions available, the rotary barrel dissipates recoil away from the shooter's hand and greatly reduces muzzle jump, making it an extremely fast and accurate. Disassembly is designed to allow for quick field stripping.

1301 TACTICAL

I301 Tactical OD Green

I301 Tactical Inox / Marine

The I301 is Beretta's gas operated semi-automatic shotgun engineered to be ultra-reliable and easy to use. Thanks to its compact size, it is ideal for negotiating tight spaces. It has all the features that a modern tactical shotgun should offer and it is easily adaptable to most users' needs, body type and shooting posture. Right out-of-the-box, the I301 Tactical features an oversized charging handle, large textured bolt release and an oversized reversible safety button. The integrated B-Link gas operating system, featuring a cross tube gas piston, allows the I301 Tactical to cycle 36% faster than any other shotgun on the market. This also makes it ideal for 3-gun competitions.

CX4 Storm

CX4 Storm

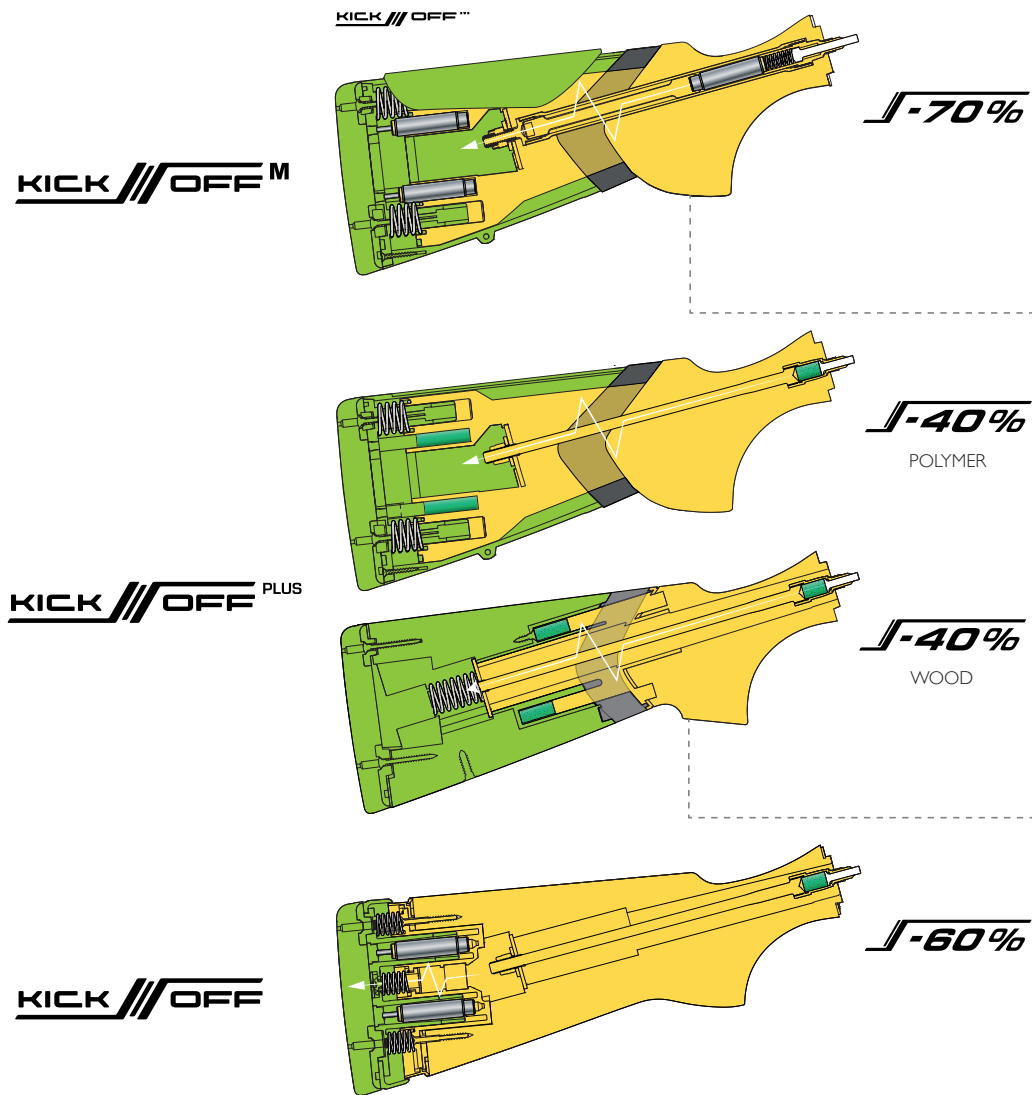

Cx4 Storm FDE

The Cx4 is a semiauto pistol-caliber carbine designed to give you the familiar controls of your favorite Beretta combat handgun. The operating handle, safety and magazine release are reversible and give you the opportunity to train or shoot right- or left-handed, while case ejection can also be switched from right to left. The length of pull is adjustable. Sights, lighting and other accessories can be easily mounted, thanks to the top rail, the retractable Picatinny rail and possibility to mount additional rails on the left, right and bottom. And after a day at the range, this carbine is a snap to take apart and reassemble, while its ultra-tough construction and surface treatment make it stand up to the hardest use.

BERETTA KICK-OFF SYSTEM

WORLD'S BEST RECOIL AND MUZZLE RISE REDUCTION

Kick-Off Mega is the most powerful recoil reduction system available today, ideal for 89 mm chambered shotguns, especially when you enjoy shooting high loads and hundreds of shots in a single day. It effectively combines 3 different devices that work synergistically, reducing the perceived recoil by up to 70%, ensuring greater stability, better control and faster target acquisition. Two hydraulic shock absorbers, similar to those used in the automotive and aerospace industry, positioned close to the rubber insert, together with return springs, effectively act on the first recoil peak. A third hydraulic shock absorber, inserted in the tie rod, acts on the second recoil peak caused by the impact of the slide against the receiver, further reducing the muzzle rise effect and the vibrations caused by the movement of the slide.

Kick-Off Plus consists of two elastomer shock absorbers, positioned close to the rubber insert and equipped with return springs, which effectively act on the first recoil peak, reducing its perception up to 40%. A third elastomer shock absorber, inserted in the tie rod, absorbs the impact of the slide against the receiver, reducing the second recoil peak, the muzzle rise effect and the vibrations caused by the movement of the slide.

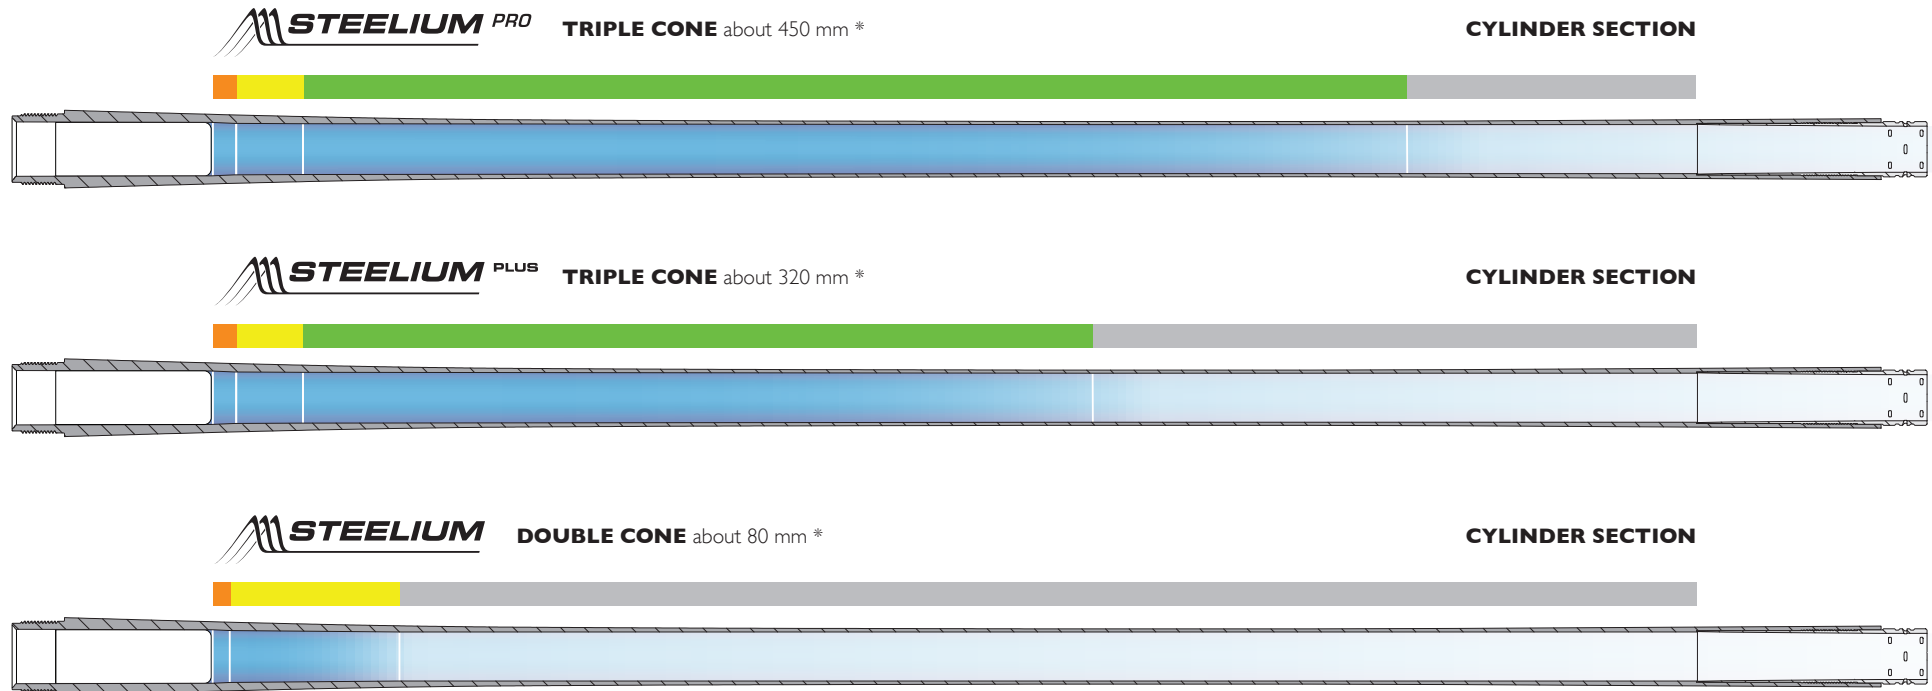

Kick-Off is the first recoil reduction system developed by Beretta using hydraulic shock absorbers similar to those used in the automotive and aeronautical industries. It consists of two shock absorbers inserted close to the butt plate, completed by return springs, which effectively act on the first recoil peak, reducing the perceived recoil up to 60%. A third elastomer shock absorber, inserted in the tie rod, acts on the second recoil peak caused by the impact of the slide against the receiver, further reducing the muzzle rise effect and the vibrations caused by the movement of the slide.

The **B-Steady** system divides the stock into two sections: stock and pistol. The point of absorption of the recoil is in an advanced position, integral with the pistol, which is free to move back, leaving the stock stable and avoiding the annoying sliding of the nose piece on the cheek. The face remains firm and perfectly steady on the stock, without ever losing the line of sight.

STEELIUM BARREL

THE BEST BALLISTIC PERFORMANCE ON THE MARKET

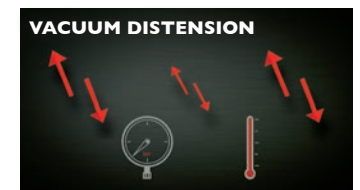

The ingredients for the stunning performance of the Beretta **Steelium barrels** are: the exclusive tri-alloy Beretta steel (Ni, Cr, Mo), the deep drilling, the cold hammer forging, the vacuum distension and the 80 mm extended forcing cone. The inner profile of the Optima-Bore HP barrels has been designed and tested to provide perfect accuracy with every type of shells: lead, steel and High Performance steel. This results in perfect patterns on every shot.

The **Steelium Plus** barrels have a triple forcing cone that reaches a length of 320 mm (in a 76 cm barrel). In **Steelium Pro** barrels, the length of the forcing cone is further extended, up to 450 mm (in 76 cm barrels). This progressive inner profile of the barrel provides smoother shot with reduced muzzle rise and guarantees perfect, dense and uniform patterns with any type of ammunition.

* The indicated lengths are based on 76 cm barrels.

LEGAL NOTES: while every effort has been made to make this catalog as complete and accurate as possible, changes may occur at any time in the illustrations, descriptions, colors shown, and technical specs listed. Beretta provides ongoing improvements to its products and consequently, all specifications can vary without notice.

THE OFFICIAL BERETTA FIREARM ASSISTANCE

In Beretta, the maintenance of your firearm is carried out by a professional Beretta gunsmith, a member of the same team who gave life to your gun. Our know-how, the use of the last generation equipment, authentic spare parts and accessories ensure the best possible care for your Beretta firearm. Today our gunsmiths are able to provide you the best service on:

- Barrel maintenance and treatment
- Wood making and treatment
- Mechanical parts maintenance, repair and replacement and much more.

Contact your local Beretta dealer to receive assistance on your firearm.

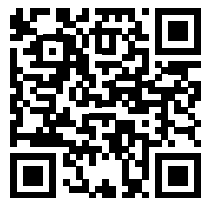

**GOT A NEW BERETTA FIREARM?
EXTEND YOUR WARRANTY!**

Register your firearm on registeryour.beretta.com and extend your warranty from 2 to 3 years*.
Enter Beretta community and discover a new world of benefits.
